## -Our History-

Food & Beverage World has been covering the artisanal food and beverage industry since the early 90's and a major element of that work has been engaging with California's storied wine producers. Over the years, we've become very familiar with some of the best boutique wineries in the state. These are mostly small, family owned business that have found some magic in the knowledge that has been passed down through generations about how to make world class bottles of wine. Now, it is our honor to be able to share these special wines with our club members, who will have the privilege of receiving these hard-to-find gems right at their doorstep.
